180° water controls and extra tapping for Models 51E and 71E		\$300.00

Foam Insulation for 71PP & 72PP = \$75.00 net. 241PP - 541PP = \$95.00 net.

Extra "C" tap for combined appliance for 71EC - 541EC = \$55.00 net.

EQUIPMENT SPECIFICATIONS

Complete assembly includes single center Turboflue[®] construction with insulated porcelain glass-lined water tank, steel outer jacket, combustion chamber, oil burner and installation instructions. All models are equipped with primary relay, operating thermostat and high limit control. All models have a cadmium sulfide flame detector mounted in the oil burner. Two or more magnesium anode rods and a factory installed T&P relief valve are furnished on all models.

WARRANTIES

Tanks for Models 32 through 71 have a **Five-year limited warranty**, only when installed in a single-family residence, otherwise a **Three-year limited warranty** applies. Tanks for Models 72 through 541 have a Three-year limited warranty. Please refer to printed warranties for full particulars.

EQUIPMENT SPECIFICATIONS

Complete assembly construction with insulated water tank, steel outer jacket, burner, two or more magnesium anode rods and handhole cleanout. Low profile vertical draft hoods furnished. All models have automatic flue dampers to reduce heat loss; and spark ignition, eliminating constant pilot burning. All models include T&P relief valves, are equipped with ECO* and are certified* by A.G.A. for 180°F water.

To order LP gas models, change suffixes from NA to XA and NA-A to XA-A. Note: Some LP gas inputs and recoveries vary from those shown for natural gas. Check current specification sheets for correct information. For NSF Construction add \$164.00

WARRANTIES

All models have a **Three-year limited warranty on the steel tank. One-Year limited warranty on parts.** Please refer to printed warranties for full particulars.

EQUIPMENT SPECIFICATIONS

Complete assembly construction with insulated water tank, steel outer jacket, burner, two or more magnesium anode rods and handhole cleanout. Low profile vertical draft hoods furnished. All models have automatic flue dampers to reduce heat loss; and spark ignition, eliminating constant pilot burning. All models include T&P relief valves, are equipped with ECO* and are certified* by A.G.A. for 180°F water.

To order LP gas models, change suffixes from NA to XA and NA-A to XA-A. Note: Some LP gas inputs and recoveries vary from those shown for natural gas. Check current specification sheets for correct information. For NSF Construction add \$164.00

WARRANTIES

All models have a **Three-year limited warranty on the steel tank. One-Year limited warranty on parts.** Please refer to printed warranties for full particulars.
